

# COMPANY PROFILE

Khair Khwa International Group LLC, (KKIG) which was founded in 2022, strives to be a major global provider of commodities and services. Within its first year of operation, KKIG - headquartered in California United States of America - has already expanded its presence to UAE and Turkey.

## About Us

Khair Khwa International Group LLC, (KKIG) which was founded in 2022, strives to be a major global provider of commodities and services. Within its first year of operation, KKIG - headquartered in California United States of America - has already expanded its presence to UAE and Turkey.

The team behind KKIG is adept and skilled from the fields of engineering, supply chain management, logistics, business management, financial management and project management. This enhances the ability of our organization to offer complete and quality services tailored for diverse customer demands.

KKIG, a leading commodities supplier, has a comprehensive fleet of owned vehicles used in providing international fuel transportations and delivery services around the globe. Our company provides heavy machinery and equipment rentals for construction and other businesses.

We also offer logistics services including warehousing, inventory management, and freight forwarding. The company provides industrial equipment rentals as well as logistics solutions including storage, inventory control, and shipping services.

Moreover, we provide common goods such as household appliances, furniture, medical equipment, commodities and many others. KKIG is responsible for making end-to-end deliveries of these products at the customers' doorsteps. Construction material supply and management is another service provided by the company to contractors and builders.

KKIG serves a diverse clientele ranging from individuals and small businesses to large corporations and governments. We pride ourselves on understanding each client's unique requirements and providing customized solutions to meet their needs in a timely and cost-effective manner.

Within a short span, KKIG has grown to over 300 employees who are committed to taking the company to new heights. The goal is to continue expanding operations throughout the United States and enhance our capabilities to serve clients across the globe. KKIG is investing heavily in advanced technologies and sustainable processes to build a future-ready organization.

With its youthful energy, domain expertise and commitment to service excellence, Khair Khwa International Group LLC aims to become a leading player in its industry and create value for all stakeholders in the years to come.

## Our Mission

To connect resources to businesses seamlessly using our global network and logistics capabilities

## Diverse services

From commodities to equipment rentals to logistics, we provide integrated solutions

07

## Customer focus

Your needs are our priority and drive our business decisions

08

# Our Services

At Khair Khwa International Group, we offer a comprehensive catalogue of services to enable organizations to outsource their non-core functions. From transportation of fuel and commodities to leasing of vehicles and heavy machinery, we provide customized solutions to optimize your operations and logistics. Our integrated warehousing, inventory management, and freight forwarding services provide end-to-end logistics capabilities. We also supply commonly used goods and construction materials for retail, industrial and infrastructure needs.

## Fuels and Transportation deliveries

Our fuel transportation and delivery services provide a reliable supply chain and logistics solution for petroleum products. With our owned fleet of specialized tankers, trailers, trucks and experienced drivers, we offer safe, compliant and on-time transportation of oil, gasoline, diesel, jet fuel and more for refineries, depots, airports, gas stations and commercial clients globally. We handle all documentation and follow stringent protocols to ensure smooth, incident-free fuel logistics.

## Trucks/Vehicles for hire

To meet your transportation and delivery requirements, we offer a range of owned vehicles for rental including trucks, tankers, reefers, flatbeds, container trailers and more. We provide both dry van and temp controlled options to haul various loads. With our fleet ranging from light to heavy commercial vehicles, we can cater to different cargo weights and volumes. Our rental service includes drivers, maintenance, insurance and can be customized from short to long term leasing.

## Heavy Machinery for Hire

From cranes, excavators, bulldozers to loaders, we rent out a wide range of heavy construction machinery and equipment. Suitable for construction projects, mining, material handling, road work and industrial applications, our well-maintained machinery rental comes with certified and experienced operators. We optimize procurement costs and offer flexible rental terms with complete service support.

### Logistics supplies and services

Our integrated logistics services provide complete supply chain solutions tailored to your needs. This includes warehousing, inventory management, packaging, labelling, freight forwarding, customs clearance and final mile delivery. We handle your raw materials or finished products with care using our network of secure, climate-controlled warehouses. Real-time inventory tracking provides visibility and control. Our optimization capabilities reduce costs and delivery times for global or domestic shipping.

### General products and services

We supply a range of commonly used household, office and industrial products to retailers, businesses and consumers. Our catalogue includes appliances, furniture, electronics, medical supplies, stationery, tools, clothing, kitchenware and more. We maintain inventory across popular brands and categories. Our purchasing capability gets you competitive pricing. Our delivery team ensures safe, quick delivery and installation services if required. We aim to be your one-stop provider for general commodities.

### Construction material supplier

As a trusted supplier to construction and infrastructure companies, we provide a comprehensive range of building materials including cement, aggregates, steel, architectural supplies, fixtures and more. Our procurement team identifies and partners with reliable manufacturers to get wholesale rates for bulk orders. We ensure timely deliveries to work sites across regions. We also provide rental of construction machinery, tools and consumables along with operators. Our expertise and logistics capabilities enable smooth material supply so you can focus on project execution.

## Housewares items

We offer a wide catalogue of essentials to run and maintain your home smoothly. Choose from our range of kitchenware like cookware, appliances, tableware, utensils, storage solutions and more. Keep your home organized with our home storage, cleaning supplies, bathroom accessories. Beautify your living space with our carpets, curtains, clocks, pillows, linens and decor items. We partner with top brands to bring you quality and variety. Purchase in-store or online and we'll deliver securely to your doorstep.

## Furniture sales & delivery services

We provide premium office and home furniture to suit style and functionality needs. Our collection includes desks, chairs, shelving, cabinets, sofas, beds, tables, accessories. Our experienced team can advise ergonomic office furniture to optimize employee productivity and comfort. For homes, we deliver pieces that perfectly fit your space and decor. We handle delivery, assembly, installation, maintenance, repair, refurbishment, reupholstering and more. With our furniture supply and support services, furnish your spaces conveniently.

## Medical equipment and accessories

We supply certified medical devices, equipment, instruments and consumables from renowned global brands to hospitals, clinics, diagnostic labs, pharmacies and health professionals. Our range includes patient monitoring systems, surgical tools, mobility aids like wheelchairs, orthopaedic supports, emergency medical supplies, disposables, disinfectants and more. We ensure prompt delivery so you can focus on patient care. Our team can also manage equipment assembly, installation, maintenance and buy-back. Partner with us for reliable procurement and servicing of healthcare supplies.

## Clothing delivery services

Our delivery service helps clothing retailers and brands offer a top-notch post-purchase experience. Our tech integration allows real-time order tracking. Our delivery partners are professionally trained to carefully handle clothing items. We follow best practices for safe, contactless delivery. With our national logistics network, we can provide same-day or next-day delivery at competitive rates, helping you enhance customer satisfaction and retention.
